# NON PAPER: List of programme specific indicators related to the cohesion policy response to the COVID-19 pandemic

## I. CONCEPT

- 1. In the coming months, Member States and regions will be amending their programmes to transfer funds to actions targeting the COVID-19 response. During such transfers, it is important that also indicators and targets are adjusted to capture the changed nature of the programme's priorities. Several MS have discussed informally with the Commission their plans to add programmes specific indicators for new actions targeting the COVID-19 response to capture the outputs from expenditure.
- 2. In order to exploit programme specific indicators, which could be commonly applied across Member States, we propose a voluntary list of such indicators, to be used when relevant. The use of the unique codes and names will allow the Commission to make use of the monitoring done by the cooperating programmes. A wide use of these codes and indicators would be highly valued for accountability, transparency and other policy purposes, such as communication at EU level (with all caveats on the potential lack of completeness of aggregation).

#### II. WHAT ACTION IS NEEDED BY PROGRAMMES?

- 3. The legislative basis already exists for national "programme specific indicators". No amendment to EC legislation is required.
- 4. The actions needed at Member State / programme level would include:
  - Adding relevant indicators (codes and names) to the programme monitoring system;
  - Using the indicators in project monitoring;
  - Including the indicator codes / names / target values (understood as a best estimate) in an OP modification by end 2020;
  - Reporting in 2020 AIR (and ad-hoc in national monitoring system).

# III. ERDF

- 5. Where ERDF programmes already have similar indicators they are invited to map them to the indicators in the list below and report them using their national definitions, in so far as the programme supports the actions concerned. These programme specific indicators should be treated as other specific indicators.
- 6. The ERDF indicators capture two types of healthcare actions:
  - Actions that became eligible only with the Coronavirus Response Investment Initiative (Regulation (EU) 2020/460);

## EGESIF\_20-0007-00 12/05/2020

• Actions that were already eligible and are already financed in the 2014-2020 period, but are relevant for the COVID-19 response (i.e. ambulances, respirators, IT equipment).

In the latter case, programmes are invited to cover all relevant 2014-2020 actions by the new indicators in setting targets and when reporting achieved values, where possible.

## IV. ESF

7. DG EMPL has published the 'Typology of indicative measures under the ESF and YEI that can be mobilised to address COVID-19 crisis' in the Coronavirus Response Investment Initiative platform at this link:

https://webgate.ec.europa.eu/fpfis/wikis/display/CORONAVIRUSRII/2.+European+Social+Fund?preview=/467317653/480281717/Typology%20ESF%20measures%20to%20address%20COVID.pdf

# **ANNEX I: ERDF INDICATORS**

## **HEALTH**

Code	Indicator name	Unit
CV1*	Value of <b>personal protective equipment</b> purchased (total public	EUR
	cost)	
CV2*	Value of <b>medical equipment</b> purchased (ventilators, beds,	EUR
	monitors, etc.) (total public cost)	
CV3*	Value of <b>medicines</b> purchased linked to the testing and treatment	EUR
	of COVID-19 (total public cost)	
	(Including cost of testing kits, anti-virals and other consumables)	
CV4*	Value of <b>IT equipment</b> and software/licences financed in	EUR
	COVID-19 response (total public cost)	
	<b>CV4a</b> – Value of COVID-19 related IT for SMEs	EUR
	<b>CV4b</b> – Value of COVID-19 related IT for health	EUR
	<b>CV4c</b> – Value of COVID-19 related IT for education	EUR
CV5	Value of <b>grants for R&amp;D</b> into COVID-19 treatments (medicines)	EUR
	and vaccines (total public cost)	
CV6*	Personal protective equipment (PPE)	Number of items
	(Including disposable masks, eye protection, coveralls, etc.)	
CV7	Ventilators to support treatment of COVID-19	Number of medical
	(Including CPAP (positive air pressure) devices)	devices
CV8	Additional bed space created for COVID-19 patients (Including	Bed spaces
	acute and ICU beds, also in field hospitals)	
CV9	Number of laboratories newly built, newly equipped or with	Laboratories
	expanded capacity to test for COVID-19	
CV10*	Testing capacity supported to diagnose and test for COVID-19	Number of tests
	(Including antibody testing)	possible
CV11	Ambulances and vehicles purchased for emergency response	Vehicles
CVxx	[Other programme specific COVID-19 health indicators ]	

<sup>\*</sup>Indicators also relevant in ESF investment priorities.

## **ENTERPRISE SUPPORT**

With a view to capture COVID-19 related support, CV22, 23 and 24 are to be treated as subsets of the existing common indicators CO02, CO03 and CO04 and to be included in CO01.

Code	Indicator name	Unit
CV20	Value of non-repayable financial support to SMEs for working	EUR
	capital (grants) in COVID-19 response (total public cost)	
<b>CV21</b>	Value of financial support to SMEs for working capital other than	EUR
	grants (financial instruments) in COVID-19 response (total public	
	cost)	
CV22	Number of SMEs supported with non-repayable financial support	Enterprises
	for working capital (grants) in COVID-19 response	
CV23	Number of SMEs supported with working capital other than	Enterprises
	grants (financial instruments) in COVID-19 response	
CV24	Number of SMEs receiving non-financial support (advice, etc.) in	Enterprises
	COVID-19 response	
CV25	Number of enterprises supported to supply equipment and PPE to	Enterprises
	the healthcare system	
CVxx	[Other programme specific COVID-19 enterprise indicators]	

## **ANNEX 2: ESF INDICATORS**

## ESF programme specific output indicators

Code	Name	Unit
<b>CV30</b>	Value of ESF actions to combat or counteract the effects of the COVID-19	EUR
	pandemic (total public cost)	
<b>CV31</b>	Number of participants supported in combating or counteracting the effects of the	persons
	COVID-19 pandemic	
	<b>CVST</b> – Number of participants who benefitted from support in short-time work	persons
	arrangements	
	<b>CVHC</b> – Number of health care personnel who benefitted from ESF support	persons
CV33	Number of entities supported in combating or counteracting the effects of the	entities
	COVID-19 pandemic	

## ESF programme specific result indicators

Code	Name	Unit
CVR1	Number of participants maintaining their job 6 months after the end of support <sup>1</sup>	persons
CVR2	Number of participants gaining a qualification upon leaving supported in actions	persons
	combatting the effects of the COVID-19 pandemic <sup>2</sup>	

<sup>1</sup> The definition of this voluntary programme specific result indicator is similar to that of the common longer-term result indicator "participants in employment 6 months after leaving", lest the inclusion of "employed participants: participants who were employed at entry" are excluded from the common and included in the programme specific result indicator.

<sup>&</sup>lt;sup>2</sup> The definition of this voluntary programme specific result indicator is the same as that of the common result indicator "participants gaining a qualification upon leaving".
